Product Designer (UI/UX)

PROFESSIONAL-SUMMARY

Experienced Senior Product Designer with 4+ years of crafting user-centric digital experiences. Skilled in UI/UX design, wireframing, prototyping, and usability testing to drive engagement and product success. Proficient in Figma, Adobe XD, Sketch, and Adobe Creative Suite, with expertise in design systems and accessibility. Strong collaborator, working closely with developers, stakeholders, and cross-functional teams in Agile environments. Adept at conducting user research, A/B testing, and competitive analysis to refine product strategies. Passionate about scalable, intuitive, and high-impact designs that enhance business growth. Driven by innovation and user-first design thinking.

SKILL

Design Tools: Figma, Sketch, Adobe XD, Adobe Creative Suite, Miro, InVision

Prototyping & Wireframing: Figma, Framer, ProtoPie

User Research & Testing: Usability Testing, A/B Testing, Heatmaps, Surveys, User Interviews

Design Systems & UI Components: Material UI, Bootstrap, Tailwind CSS,

Collaboration & Version Control: Zeplin, FigJam, Notion, Jira, Confluence, Trello

Development & Frontend Basics: HTML, CSS, JavaScript, Git, Framer, Cursor, Claude Code

Accessibility & Design Standards: Responsive Design, UX Writing

Soft Skills: Collaboration, Critical Thinking, Problem-Solving, Attention to Detail, Adaptability, Continuous Learning.

EXPERIENCE

Simplip2p (Remote – Lagos, Nigeria)

Feb 2026 – June 2026

(Figma, Stitch by Google, Miro, Jira, Trello, Notion, Slack)

- Led the design of complex web applications supporting procurement, logistics, budgeting, requisition, and approval workflows. Translated business requirements into intuitive user flows, wireframes, and high-fidelity interfaces.

- Conducted qualitative and quantitative user research used insights to redesign critical user journeys, reducing approval delays and improving operational clarity for enterprise users.
- Built and maintained a scalable design system to ensure consistency also standardized components, typography, spacing, and interaction patterns to improve design-to-development handoff and accelerate product iteration cycles.
- Worked closely with company development team member align business logic with user experience. Participated in agile sprint planning, design reviews, and implementation QA to ensure accurate translation of designs into production-ready features.

Yolad Global Services (Hybrid – Lagos, Nigeria)

Feb 2023 – Apr 2026

(Wireframing, Prototyping, Figma, Adobe XD, UX Research, Interaction Design, Responsive Design, Heuristic Evaluation, Visual Design, Design Systems, Usability Testing, Mobile UI/UX, User Flow Mapping, Stakeholder Management)

- Designed end-to-end user experiences for a two-sided marketplace connecting clients with vetted skilled professionals, covering discovery, booking, payments, and job completion flows.
- Improved user onboarding completion rate by 20–35% through simplified flows and clearer value propositions.
- Led user research, usability testing, and iterative prototyping to validate real-world workflows before digital scaling, reducing friction in job posting and acceptance flows.
- Partnered closely with engineers and stakeholders to translate complex operational needs into simple, scalable UI patterns for users and internal dashboards.
- Built and maintained a modular design system that ensured UI consistency, accelerated feature rollout, and improved design-to-development handoff.

Zendit Technologies (Remote)

Aug 2024

(Figma, Adobe XD, Miro, Notion, Jira, Sketch, FigJam, Material UI, User Research, Wireframing, Prototyping, Usability Testing, Design Systems, A/B Testing, Competitive Analysis, Agile, Accessibility, Responsive Design, Interaction Design, UX Writing)

- Led user research, competitive analysis, and usability testing to uncover key friction points across shipment booking, tracking, and delivery workflows.

- Designed end-to-end experiences for Zendit's web and mobile platforms, delivering wireframes, interactive prototypes, and high-fidelity UI that improved task clarity and flow efficiency.
- Optimized navigation, information architecture, and accessibility, contributing to a ~20% reduction in user drop-off across core logistics journeys.
- Implemented A/B testing and data-driven design iterations, resulting in a ~30% increase in user engagement and feature adoption.
- Redesigned the logistics operations dashboard (order tracking, driver management, and payments), improving operational efficiency and reducing support friction for internal users.

Farmily Inc. (Remote) |

Feb 2024 - Aug 2024

(Figma, Adobe XD, Surveys, A/B Testing, Heatmaps, Market Research, User Persona Development, Jira, Trello, Notion, Zeplin, Material UI)

- Led the design of end-to-end e-commerce journeys connecting farmers directly to consumers, covering discovery, onboarding, checkout, and post-purchase experiences.
- Redesigned navigation and checkout flows, contributing to a ~30% reduction in checkout abandonment through clearer information hierarchy and simplified payment interactions.
- Conducted user research and competitive analysis to refine farmer onboarding and value messaging, resulting in a ~40% increase in farmer sign-ups.
- Delivered wireframes, prototypes, and high-fidelity UI designs for web and mobile, improving overall usability, engagement, and shopping confidence.
- Built and maintained a scalable, mobile-first design system that improved UI consistency and reduced design-to-development iteration time by ~35–50%.

HighTable Inc. (Remote) |

Apr 2023 - Jan 2024

(Figma, Adobe XD, Google Forms, Hotjar, A/B Testing, Jira, Trello, Notion)

- Led the redesign of Hightable's mobile app, improving navigation clarity and overall user experience, which contributed to a **35% increase in user engagement**.

- Conducted user research and market analysis across key African markets to uncover booking and discovery pain points, informing data-driven design decisions.
- Designed user-centered wireframes, interactive prototypes, and high-fidelity interfaces that improved task efficiency and reduced friction across restaurant search and booking flows.
- Planned and facilitated usability testing sessions, iterating on designs to streamline booking interactions and deliver a **20% faster reservation process**.
- Collaborated closely with engineers and stakeholders to ensure smooth design-to-development handoff, helping reduce UI-related development issues and rework.

See9ja NG (Remote)

Dec 2021 - Mar 2023

(Figma, Adobe XD, Miro, Notion, Jira, Sketch, FigJam, Balsamiq, Trello)

- Led user research and competitive analysis to uncover traveler pain points, informing product decisions that increased overall user engagement by **~30%**.
- Designed a mobile-first, user-centered experience for discovering and booking tourist destinations, reducing navigation friction and drop-off by **~25%**.
- Created wireframes, interactive prototypes, and high-fidelity UI designs that improved task completion and booking flow efficiency.
- Collaborated closely with developers and stakeholders to ensure smooth design-to-development handoff, contributing to faster release cycles and fewer UI inconsistencies.
- Represented See9ja at the **2022 Tourism Hackathon**, where the platform ranked among the **top 10 solutions** driving digital innovation in Nigeria's tourism sector.

Terra Learning · Internship

Oct 2021 - Nov 2021

(Agile Leadership, Team Leadership, Cross-functional Team Leadership, UI UX Design, Figma & Prototyping · Design Thinking, Communication & Presentation)

- Facilitated team meetings, design reviews, and project presentations to stakeholders, showcasing user flows and design concepts effectively.
- Led a team of UI design interns, managing project timelines, task assignments, and ensuring deliverables met bootcamp objectives.

- Conducted user research and synthesized insights to inform wireframes, UI components, and high-fidelity prototypes in Figma.
- Provided design feedback and guidance, improving overall design quality, consistency, and alignment with user-centered principles.
- Acted as the liaison between software engineers, product managers, graphic designers, and bootcamp leads, streamlining the design-to-development workflow.

EDUCATION

Higher National Diploma (H.N.D)

Electrical and Electronics Engineering (CGPA: 3.28/4.0)

December 2019.

The Polytechnic, Ibadan, Oyo State, Nigeria.

- Relevant Coursework: Circuit Design & System Modelling, Computer-Aided Design (CAD), Control Systems & Automation, Electrical Machines & Relays, Programming & Embedded Systems, Power Systems & Smart Technologies.

Ordinary National Diploma (H.N.D)

Electrical and Electronics Engineering (CGPA: 3.88/5.0)

October 2015.

The Polytechnic, Ibadan, Oyo State, Nigeria.

- Relevant Coursework: Power Systems & Distribution, Control Systems & Automation, Circuit Design & Analysis, Embedded Systems & Microcontrollers, Electrical Safety & Standards.
